

WORK EXPERIENCE

Programme Associate, Climate Resilience, Council on Energy, Environment and Water, Delhi | Dec 2024 – Ongoing

- Leading a Locally Led Climate Action (LLCA) project to generate evidence on policy, governance and financing mechanisms that enable the scale-up of community-led climate action. Managing a 4-member team across seven research sites in India, overseeing research design, stakeholder engagement quality assurance and strategic delivery.
- Co-authored the flagship report, developing recommendations for a national LLCA framework to strengthen governance, mobilize finance and build institutional capacity for scaling locally led climate action (*Draft in print*).
- Initiated a project on post-disaster psychosocial support, engaging state (Himachal Pradesh and Tamil Nadu) and national disaster management authorities to strengthen recovery frameworks for communities affected by climate-related hazards, including cloudbursts, landslides and extreme heat.
- Driving an initiative on climate resilience entrepreneurship in India advancing resilience innovation and identifying policy and institutional gaps to scale solutions for urban climate risks, including flooding, water scarcity and extreme heat.
- Published 2 Policy Review articles as lead author in HUDCO's Shelter magazine (September 2025 & May 2026); Contributed to the chapter titled "*Psychosocial Support for Climate Vulnerable Informal Communities*" to IIHS's Edited Volume. (*Draft Submitted*).
- Lead author on the Paper titled "*Reframing Blue-Green Infrastructure as a Multi-hazard Resilience System: Planning Lessons from Indian Cities*" for C40's Journal of City Climate Policy and Economy (*Draft Submitted*).
- Empanelled as IPCC Expert Reviewer - Special Report on Climate Change and Cities contributing to chapters 1, 3, 4, 5.
- Founded and leading the Foresight Working Group within Climate Resilience team to systematically integrate equity and intersectionality into existing workstreams looking at people-centric climate resilience approach.

Researcher, Climate Insights Unit, Shakti Sustainable Energy Foundation, Delhi | Jan 2024 – Oct 2024

- As part of the Climate Insights team, played a key role in providing inputs to the program teams, focusing on prospective horizon scoping thus actively contributing to identification of new research priorities.
- Convened a multi stakeholder expert Forum (LEADS-India) comprising of elected representatives, industry leaders, civil society organizations, and government representatives, to address critical policy challenges related to India's Net-Zero goals.
- Launched Shakti's first cross-sectoral newsletter, tracking major national and international climate mitigation policy developments, analyzing emerging technologies and trends, and assessing low-carbon pathways aligned with India's Net-Zero targets and global climate commitments.
- Developed critical documents and notes aimed at delivering actionable insights to inform and engage key internal and external stakeholders in India's energy transition and climate action efforts.

Policy & Legislative Fellow, Delhi Legislative Assembly, Government of Delhi | Apr 2022 – Aug 2023

- Contributed to Delhi Green Policy draft focused on climate resilience through green cover and biodiversity enhancement per State Action Plan on Climate Change.
- Conducted policy research and analysis of central/state government schemes; authored policy briefs for elected representatives.
- Operationalized a tech-enabled citizen grievance and monitoring system to optimize public service delivery, directly impacting over 200,000 urban residents.

- Spearheaded localized water governance and climate resilience frameworks, establishing streamlined feedback loops to improve resource access and climate-adaptive infrastructure.

Rural Futures, Knowledge & Advocacy Lead, Balipara Foundation, Assam | Mar 2020 – Mar 2022

- Designed and operationalized flagship climate resilience program across 24 villages, reaching 3,000+ community members.
- Helped secure INR 1 Cr+ funding for youth program (climate resilience, livelihoods, rural circular economy).
- Co-designed specialized well-being index as monitoring/assessment tool measuring climate change impact on socio-economic development in Eastern Himalayan communities.
- Produced thought leadership (research publications, reports, policy analysis, media articles) on Eastern Himalayan climate and environmental landscape.

Research Fellow, Climate Resilient Zero Budget Natural Farming, UNEP-RySS, Andhra Pradesh | Feb 2019 – Mar 2020

- Designed and conducted study with 500 farmers across 4 districts measuring natural farming impact on climate change mitigation and crop productivity.
- Assessed global best practices and identified policy gaps in Andhra Pradesh agriculture sector.
- Coordinated BNB Paribas and GEF partnerships; conducted farmer workshops on market linkages and livelihood improvement.

Fellow – Policy & Planning, Development Alternatives, Delhi | Aug 2018 – Oct 2018

- Designed socio-economic studies supporting community entrepreneurship under National Mission on Himalayan Studies, Uttarkashi district.
- Collaborated with district administration, MSMEs and businesses on eco-tourism ventures; documented livelihood patterns and initiated income localization interventions.

EDUCATION

- PEDP in Data Science for Social Impact, Ashoka University & J-PAL | 2023–24
- Anubhav Fellow, Harris School of Public Policy, University of Chicago | 2022
- PG Diploma in Environmental Law & Policy, Centre for Environmental Law, NLU-WWF, Delhi | 2021–22
- M.A. Ecology, Environment & Sustainable Development (Gold Medallist), Tata Institute of Social Sciences | 2016–18
- B.A. History (Honours), University of Delhi | 2013–16

CORE COMPETENCIES

Research & Analysis: Research management, quantitative/qualitative analysis, visualization | Proposal & Grant writing | Budget Management | Strategic communications | Stakeholder convening & engagement

Technical Tools: Office Suite, Power BI, Looker Studio, AI Integrated workflows using tools like Claude, OpenClaw, NotebookLM, Google Colab; Currently enrolled in a GIS course by ESRI

Sector Expertise: Climate resilience and adaptation | Climate and Environmental policy | Community Engagement | Natural resource management | Ecosystem-based adaptation
